Year Built: 200 refit 2013
Fuel Type: Diesel
Cruising speed: 12 kn
Length: 30.6 m
Draft: 2.2 m
Beam: 7.2 m
Cabins: 4
Max. guests: 8
Crew: 4
Jacuzzi:

This extremely high volume 30m tri-deck motor yacht was custom built in 2000 by CBI Navi. At the time, this luxury vessel's sophisticated exterior design and engineering were the work of Lucca Dini Design whilst the interior was the work of CLM Engineering.

Acomodation: Boarding Novela brings you to the spacious aft deck, which can comfortably sit ten for cocktails around her beautifully designed coffee tables or twelve for formal dining when the coffee tables convert to a large dining table. Walking through the large sliding door brings you to the elegantly designed main saloon for more formal entertaining accompanied by the grand piano, cocktail bar and hidden TV entertainment system. Directly forward of here you will find the formal dining area separated behind a beautifully carved glass horse engraving, which really makes quite a feature when lit during the evening. Passing the mid-ship stairwell and galley you enter into the

split-level, full beam owners cabin through its own private office area. The master suite offers stunning views through its large windows, especially whilst relaxing on the raised double bed. Enjoy one of the many films available through the entertainment system, or just catch up with the daily news on SKY from the comfort of your bed on the large flat screen LCD TV hidden away in the beautifully designed cabinet at the foot of the bed, all through the simple controls of your own personal iPad mini. Descending a few stairs brings you to the dressing area and en suite bathroom with its large shower/steam room starboard, his and hers sinks, all designed with sumptuous Carrara marble though out. Descending the mid ship stairwell, from the marble lobby, brings you to the lower deck where there are a further three guest cabins. The aft-located VIP cabin also benefits from the full beam of the yacht as well as large portholes with striking views. Here too you can take full advantage of the yachts full entertainment system from either your bed or the comfy sofa on the starboard side of the cabin due to the cleverly engineered wall mounted LCD TV which can be moved 90 degrees all at the push of a button from your Ipad Mini. There is a large walk in wardrobe to port and a beautifully appointed bathroom to starboard also with its large shower/steam room and his and hers sinks. Dont want to see anyone before your daily intake of coffee, dont worry, at the push of a button your own Nespresso machine will lift out of the furniture, ensuring you dont get up on the wrong side of the bed!

Two twin cabins are located forward to port and starboard also boasting large portholes and well-appointed en suite bathrooms. These cleverly designed cabins can both be converted to double cabins offering unusually large beds (195x170cm) after conversion. Enjoy your own music through the wireless connectivity to the BOSE sound system located in both these areas. On the upper deck, the pilothouse is located forward with the sky lounge aft. The sky lounge boasts an extremely large L shaped sofa ideal for relaxing or watching movies on the hidden large screen LCD TV located in this area.

The entertainment system through out the yacht is state of the art featuring a film library of over 200 films, over 2000 songs and wireless connectivity through out. So just bring your Ipad/iphone with you, hook on to the wireless network and play your own music/films anywhere on the yacht, inside or out. Moving aft through the large sliding door will bring you out to the stern fly bridge. This area hosts a further dining table with an electric sun awing system, BBQ, fridge, ice maker and to work of the delights of the chef a Elliptical cross trainer with one of the best views in the house! Then of course there's the Jacuzzi surrounded by a large sunbathing area to lie back, take in the sun and chill out to some great sounds from our library or your own! In front of the pilothouse is located a further bow seating area ideal for having a cocktail while cruising. Forward of this area are a further two huge sun pads located on the bow for soaking up that sun with a little breeze whilst cursing to your next destination. Then it's the top deck offering a hidden surprise, a hugely decedent area to unwind, one big sun pad to take in all the beautiful sites in complete privacy. Just raise the flag for another refreshing cocktail. The stern lower deck offers a large swim platform making easy access for swimming and a great location to take advantage of the extensive array of watersports available on board. There is also the use of the 8m-300HP yacht tender, which will take your breath away on the watersports, as well as ensuring you arrive safe and dry on shore, no matter what the weather throws at you.
